The Company's business in Quarter 3 is traditionally softer compared to Quarter 1 and 4 due to low tourist arrivals in Phuket during this time of the year.

Total revenue for the three-month period decreased by Baht 200 million as compared to the same period last year due largely to the following:

- Revenue from hotel operations which comprise of hotel, golf and retail operations increased by Baht 131 million. This was due to the improved performances of Banyan Tree Bangkok and Laguna Phuket hotels when compared to the same period last year.
- Revenue from property development operations which comprise of property sales and the sale of holiday club memberships decreased by Baht 346 million as the revenue recognition of the two property sales projects namely Laguna Park and Cassia Phuket was lower when compared to the same period last year. There is a total of Baht 878 million in property sales revenue which will be recognized in the future barring any cancellations.
- Revenue from office rental operations which includes retail leasing increased by Baht 3 million due largely to the increase in occupancy rate of Thai Wah Tower I.
- Interest income increased by Baht 5 million and this is attributed to an increase in long term trade accounts receivable of property buyers.
- Other income increased by Baht 7 million from an increase in dividend income from other long-term investment.

Total expenses decreased by Baht 169 million as compared to the same period last year which is generally the result of the following:

- Cost of hotel operations increased by Baht 48 million which is in line with the higher hotel revenue.
- Cost of property development operations decreased by Baht 237 million as less property sales were recognized during the period.
