## 8. To consider any business

### **Update on Free Float Non-Compliance**

Mr. Thongchai informed the Meeting that for this agenda, the Company would like to provide an update on the progress regarding its non-compliance with the free float requirement and invited Mr. Eddy See Hock Lye, Chief Executive Officer, to give the update on Free Float non-compliance to the Meeting.

Mr. Eddy See updated to the Meeting that as shareholders may be aware, the Company is not in compliance with the SET's free float requirements. New measures and procedural requirements have been imposed following the implementation of the amended free float regulations, effective from 25 March 2024.

Despite this, we would like to emphasize that the Company has fully complied with all procedural requirements prescribed by the SET for free float non-compliance companies. These include conducting the required public presentations and submitting quarterly progress reports to the SET throughout the CF (Caution Free Float) and SP (Trading Suspension) periods.

The Company's securities have been marked with an SP (Trading Suspension) sign since 5 June 2025 and the Company has taken various actions, as reflected in the progress updates reported quarterly by the Company.

The Company cannot rectify the free float shortfall within the prescribed timeframe. As a result, in accordance with free float regulations, the SET will announce that the Companies' securities are subject to possible delisting, and will post the NC (Non-Compliance) sign, while maintaining the SP sign on the Company's securities. The SET may, at its discretion, consider the delisting of the Companies' securities.

After the SET's Board of Governors orders the mandatory delisting, the SET will allow the listed company securities to be traded for 7-day period before the delisting effective date. This is a temporary window providing an exit for the shareholders.

The shareholders should be aware that free float non-compliance constitutes a material regulatory risk and potential delisting of the Company's securities from the SET. Therefore, the Company encourages shareholders and investors to carefully consider these risks when making investment decisions.

## Q&A

The following are queries from shareholders and Management's replies.

Mr. Sahas Liamswan, shareholder, holding 38,300 shares.

- Since the company has clarified with the SET that a suitable rectification plan has not yet been established, has the Board of Directors considered Voluntary Delisting as a solution? This would provide minority shareholders with the opportunity to sell back their shares at a fair price through a Tender Offer.

### Response:

A tender offer is a process that requires the decision of the major shareholder; it is not something the Company can initiate on its own. The Company has consistently communicated to investors throughout this period that the major shareholder has considered the matter and decided not to proceed, as it is not aligned with the current strategy and business plan.

- Currently, the market price (prior to the SP sign) is more than 50% below Book Value. If a Tender Offer occurs in the future, does the company have a policy to utilize an Adjusted Net Asset Value (Adjusted NAV) valuation? This would ensure the price reflects the current market value of the company's land and hotel assets in Phuket.

### Response:

As explained in our response to the first question, a tender offer is a decision that rests with the shareholder. At this time, the major shareholder has no plans to

proceed with such action. Accordingly, the question of valuation methodology has not been considered at this stage.

Nevertheless, the Company acknowledges shareholders' concerns regarding the gap between the market price and book value. Should any such action be undertaken in the future, the Company would be required to strictly comply with all applicable laws and regulatory requirements.

- While the stock is under an SP (Suspension) sign and the free float rectification remains unclear, does the company provide any channels or a Registrar to facilitate coordination for minority shareholders who may need to match buy/sell orders among themselves outside of the exchange?

Response:

While the Company's securities are marked with the SP sign, shareholders may conduct off-market transactions through their securities brokerage firms, which will coordinate with Thailand Securities Depository Company Limited (TSD) for the transfer of securities.

In addition, in the event of a delisting, prior to the delisting becoming effective, the Stock Exchange of Thailand will allow the Company's securities to be traded on the exchange for a period of 7 business days, providing shareholders with an opportunity to trade before the delisting takes effect.

Ms. Chanatip Wittayakul, proxy holder of Thai Investors Association, holding 100 shares.

- Given that the Company's shares have been suspended from trading (SP) for nearly a year, and the deadline is approaching this June, what is the Company's plan to increase the Free Float proportion to 15% in order to maintain its status as a listed company?

Response:

As explained earlier by Mr. Eddy See and the response to the first question, rectifying the free float shortfall to meet the prescribed threshold requires the cooperation of the major shareholder, which is beyond the Company's ability to mandate or control. The major shareholder has considered the matter and decided not to proceed, as it is not aligned with their current strategy and business plan.

Mr. Kamol Phinichkusolchit, shareholder, holding 207,000 shares.

- How much undeveloped land does the Company have / in what areas? The values on the books are held at what cost? In case there are to be revalued, what will be the change in value?

Response:

The Company holds approximately 900 rai of undeveloped land located in Laguna Phuket. The land is recorded at cost in accordance with applicable accounting standards, under which undeveloped land is not revalued and is therefore carried at cost on the balance sheet. The Company cannot provide any estimate of potential changes in value, as such assessments would be inherently speculative, and the Company is therefore not in a position to provide an estimated revalued value.

- What is the completion timeline for ongoing development projects?

Response:

- Banyan Tree Oceanfront Villas (Aegir): Q4/2025 onwards
- Banyan Tree Seaview Residences (Sirena): 2027
- Banyan Tree Beach Terraces (Nammu): Q1/2026 onwards
- Banyan Tree Lagoon Pool Villa (Yara): Q4/2026 onwards
- Skypark Celeste: Q1/2026 onwards
- Lakelands waterfront condos and waterfront villas: 2027

- What is the level of interest bearing debt?

Response:

Interest-bearing debt is approximately 17% of total assets

Since all the agenda items are considered and voted, Mr. Thongchai then handed the Meeting back to the Chairman.

The Chairman thanked all shareholders for attending the Meeting and declared the Meeting adjourned.

At the end of Meeting, there were 35 shareholders and proxy holders in total who attended the Meeting, holding 150,642,011 shares, equivalent to 90.38 percent of the total paid-up capital consisting of 166,682,701 shares.
